# 2024 ADSP Program Review Meeting
# Call for Poster Abstracts and Submission Guidelines

Poster Abstract Submission Deadline: **Friday, February 9, 2024**

The ADSP will host its 2024 ADSP Program Review Meeting on March 27 and 28, 2024, in Rockville, MD. Investigators, particularly students and junior faculty members, are invited to submit a scientific abstract highlighting their research findings and present it during the meeting. Posters will be presented <u>in person</u> on March 27.

**ABSTRACT SUBMISSION GUIDELINES**

Please submit the following:

- Title of abstract
- Primary presenter name, affiliation, and email address
- ADSP grant number(s)
- Other author name(s) and affiliation(s)
- Description of research and key findings (no more than 250 words)
- Indicate if abstract has been presented or accepted for presentation at a conference

Submit abstracts in Word format **by COB Friday, February 9, 2024,** by uploading them to this Google Drive folder: 2024 ADSP Abstract Submissions. If you're unable to use Google Drive, please email conferences@luminacorps.com for alternative instructions.

Due to space limitations, no more than 50 posters can be presented at the meeting. If more than 50 abstracts are received, abstracts will be reviewed and 50 abstracts will be selected with the goal of optimizing representation from across ADSP projects. All those who submit an abstract will be informed of final poster selections by **February 15**. Guidelines and directions for submitting posters will be shared at that time. Digital versions of posters are due by **February 29** so they can be reviewed and shared with the advisors in advance of the meeting.
